Instructions for Authors

Manuscripts should be submitted electronically (in Microsoft® Word format) in English only via Open Journal System at http://ojsdev.nomos.org/lit/index.php/index. Manuscripts that do not adhere to these guidelines will be returned to the authors for resubmission in proper form.

Manuscripts should be accompanied by an abstract of approximately 250 words.

The author’s name should not appear on the manuscript to protect anonymity.

References should be listed alphabetically by author at the end of the text. Reference lists should not contain references to works not cited in the text. Websites mentioned in passing in the text should be identified parenthetically with their URLs but not with references unless a specific page of a specific website is being quoted.

Author names should be given as found in the sources (not abbreviated, but also not fuller than what is given in the source). Journal titles should not be abbreviated. Multiple citations to works by the same author should be listed chronologically and each should include the author’s name. Articles appearing in the same year should have the following format: “Jones 2005a, Jones 2005b, etc.”

Proceedings must be identified fully by volume title (which often differs from the name of the conference), editor(s) (if applicable), and details of publication place (publisher and publisher name). Papers in proceedings must be identified by their page numbers. Papers from online proceedings that lack publication details should include a DOI or URL.

Journal issue numbers are given only when a journal volume is not time-stamped. References for published electronic resources should be accompanied by either a URL or DOI but not in lieu of actual publication data; access dates are not allowed.

Unpublished electronic resources may use an access date in lieu of the date of publication. In cases of doubt, authors are encouraged to consult The Chicago Manual of Style 17th ed. (or online), author-date reference system (chapter 15).
